

## 解 答

- |   |                         |                       |           |                    |              |
|---|-------------------------|-----------------------|-----------|--------------------|--------------|
| 1 | (1) $61\frac{1}{3}$     | (2) $\frac{2}{11}$    | (3) 75    | (4) $\frac{22}{7}$ | (5) 0.60099a |
| 2 | (1) 39                  | (2) 1120m             | (3) 450円  | (4) 水曜日            |              |
| 3 | (1) $131.88\text{cm}^2$ | (2) 22.5度             |           |                    |              |
| 4 | (1) 3 : 2               | (2) 25分後              | (3) 1.8km |                    |              |
| 5 | (1) 40cm                | (2) 45cm              | (3) 27 L  |                    |              |
| 6 | (1) $\frac{10}{27}$ 倍   | (2) $1440\text{cm}^3$ |           |                    |              |
